MEDICO-MORAL PROBLEMS

By Gerald Kelly, S.J.

The series of booklets published during the past several years containing the valuable material written by Father Kelly in the medico-moral field is now revised and is available in *one volume*. The single volume brings previous matter up to date and contains much completely new thought.

There are thirty-eight chapters in the book and topics included concern the cancer patient — destruction of life, in all its aspects — Catholic teaching on contraception and sterilization — hypnosis as anesthesia — psychosurgery — mutilation — artificial insemination, and many others.

YOU WILL WANT THIS EXCELLENT VOLUME for daily reference. Father Kelly's presentation of this important material is clear and concise and is in accord with other theologians in the medico-moral field. He has been consultant to The Catholic Hospital Association for many years and is well known to THE LINACRE QUARTERLY readers for his many valuable articles appearing in the journal.
